*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Director of Central Intelligence

FROM : Executive

SUBJECT: Administrative Instructions Awaiting Amalgamation

DATE: 3 October 1949

1. You are now holding a completed and coordinated Administrative Instruction covering the responsibility for counter-espionage in CIA pending final determination on the amalgamation of certain operational offices.

2. There is attached hereto a proposed Administrative Instruction establishing much needed control of liaison with the FBI which you have previously given instructions also to hold for decision relative to the amalgamation referred to above. This Administrative Instruction has been coordinated with all of the appropriate Assistant Directors and Staff Chiefs, who have concurred with the exception of OPC. OPC's only comment is that they feel this instruction is premature.

3. There are frequent occurrences indicating growing urgency for the announcement of adequate control policies covering the two subjects referred to above. The instructions prepared for issuance have been drafted with the end in view that they will be valid and workable under circumstances involving either no change in current organization or an amalgamation of the three activities under consideration.

4. It is recommended that --

a. You sign the attached stencil stating the FBI liaison policy;

b. You authorize the immediate publication of the proposed counter-espionage control policy, the draft of which is now being held in your office.
